

The management has adopted and announced the following quality policy for the Gesellschaft für Anlagensicherheit mbH:

- Consistently assuring **and continuously improving on the satisfaction** of our customers are among our highest principles. The benchmark for quality is set by our customers, which is why their assessment of our quality is so decisive.
- Each individual employee helps ensure our quality standards through his or her personal effort.
- We make sure that quality and safety-relevant activities are consistently planned, managed and monitored. This enables us to meet the quality requirements of our customers as well as the applicable legal and official regulations.
- We give special importance to error prevention as opposed to error detection.
- A **continuous improvement process** aims to constantly enhance the quality of our services through the dedicated effort of all employees at all levels.
- The company is committed to fulfilling the standards of the quality management system and to its continuous improvement.

All employees are made aware of the quality policy. It is made available to relevant interested parties and is also reviewed each year for suitability and appropriateness as part of the management review process.
